[About](#) [Portfolio](#) [Resume](#) [Contact](#)

My Name is Divina Apicel and I am currently in college at CityTech for Graphic Design. Art has always been a constant in my life ever since I was small. It wasn't until High School that I realized Graphic Design was an alternative to the "hard living fine artist". I'm fascinated with many aspects of design, from animation to logo design. Although I lean more towards studio art, I love to learn, design, illustrate, and photograph. My ultimate goal is to use art as a learning tool for ESL and Special Ed. kids who are in need of a new way to learn that the education system cannot give them.

## PHOTOGRAPHY

I enjoy taking long walks with my camera and just being in the moment of awareness. Enjoying the scene, capturing it, and giving feeling to it is what I try to focus on when doing photography.
